

McPherson Magnet C-STEM Robotics

The C-STEM program was created by UC Davis Center for Integrated Computing and STEM Education (C-STEM). This class provides students with an opportunity of hands-on integrated learning of mathematics and computer science with coding in Blockly, Ch/C/C++, and robotics.

As a [UC Approved Educational Preparation Program](#), participation in the C-STEM program, C-STEM student individual and team awards, and C-STEM extracurricular activities are recognized in the UC admissions process as achievements that have explicitly prepared students for college and career.

The culminating event is on Saturday, May 18th, 2019
RoboPlay Challenge Competition in Irvine.

Date: Every Thursday, starting on October 25th
Time: 2:45pm - 3:45pm
Location: Room 403

Regional and State Champions 2018
